Who I am solo wrap-up

1. I chose to modify my solo and made there be less traveling, because that way it would fit in the half of the room.

I also modified the ex. and made it faster so it would look better.

2. These revisions & modifications enhanced my dance because it made what I wanted to say more clear.

3. Through this process I learned that it is more fun ^{for me to} create a dance than to perform it.
