

TASK 3c

DA-KHB-III-08-T3c

OB ~~OB~~

Looking at the video of our dance, a few things we could change is not making everything in unison which amplifies the community feel we want. Also making the use of direction change could symbolize that we're all different in a community. To make our dance more mosaic, we could use more abstract and symmetrical movement. Also more sharp and visible movement could attract the audience.
