Artistic Statement: Created as a group

We believe that it takes individuals to create a thriving community, just as it takes multiple pieces to create the picture in a mosaic.

Updated March 13, 2016

Intent

To portray ideas about a corrupt community, showing the cause and effect of every action whether it be positive of negative, but to show the effect that every person has in a community using chorographic devices and all of the elements of dance.

DA-PPP-III-07-T1 Artistic Statement

*In collaboration with DA-PPP-III-01

Artistic Statement: A Corrupt Community

In a community, each individual has the power to positively and negatively transform the environment around them. Elements such as their race, sex, culture and beliefs can conduce change to the society, and can also promote thoughts of rejection and acceptance of an idea from these features. In this community, everyone speaks their own mind, leading us believe that the
power of a close mind can lead to issues in a society while an open mind can solve them.

Working together to dispel the refusal of views and judgement causes hesitation; change of thought may cause controversy in the community, but will always work out for the better good of all.

Artistic Statement: Created as a group

We believe that it takes individuals to create a thriving community, just as it takes multiple pieces to create the picture in a mosaic.
to show trust that can form in our community
  connecting + leading
