

2.1 Eight A1f

March 10

My opinions on stereotyping women is that I think women can do what guys can do. And I can't believe that guys would bring us down saying we can't do this just because we are women. Just because we might not be as strong as them.

~~When people hear the word women or girl they think is that~~ I would like people to

Understand that even tho we might not be as tall or big as them does not mean we cannot do something. We are a strong and independent ~~group of women~~ I want people

to portray us as human beings. Not in

~~a sexist way~~ a sexual way. Some

guys just want us for our body and not our minds. That is going to have to change.

When they see my dance I want people to ~~say~~ have another respected ^{and} apresentation for us.
